

10 Series FreeRunner™

A Breakthrough in Cardio Performance

Free yourself from what you know about treadmills. The newest machine from Star Trac, the 10TRx FreeRunner, creates a revolutionary feel for runners and walkers due to new HexDeck technology, a patent pending aluminum running deck supported by a proprietary, hexagonal polymer suspension system. The result is a treadmill with unprecedented cushion and responsiveness – lightweight walkers, heavyweight runners and everyone in between will experience initial cushion/flex at foot strike, along with an immediate response, returning support and energy for the push off. The deck also boasts longevity and service benefits. The aluminum deck dissipates heat, keeping a cooler surface for the belt and reducing wear. The aluminum deck panel will last many times longer than MDF - only a thin phenolic layer needs replaced when worn, significantly reducing the labor and material long-term cost of ownership.

CONVENIENCE FEATURES LIKE WATER BOTTLE HOLDERS, MEDIA TRAYS & PERSONAL FANS

OPTIONAL TABLET HOLDER CAN BE ADDED TO THE TOP OF LCD OPENHUB™ CONSOLE.

OPENHUB™ FAMILY OF CARDIO CONSOLES

When we set out to design our new console, our philosophy was simple: provide a flexible platform that connects expert partners to provide solutions for every customer for today and into the future. OpenHub is a smart, affordable, configurable solution available on Star Trac® and StairMaster® cardio equipment packed with entertainment, fitness tracking, group display, and asset management solutions. Whether you are looking for embedded TV, streaming video, 800/900mhz receivers or an add-on pvs, it's all possible. The best part is, you add (and pay for) only what you want, when you want. All OpenHub consoles can connect with leading technology and third party apps to deliver connectivity solutions for users to easily track, save and share their workout results. The future of club connectivity is here. The future is OpenHub.
