

StairMaster®

THIS IS HIIT

StairMaster 10G

The StairMaster 10G marks a revolutionary shift in stair-climbing technology. The innovative new design features the OverDrive Training Mode that simulates carrying or pushing a load up stairs, for the most intense climbing workout. The 10G's advancements all focus on delivering the best climbing experience ever created. User-focused features include the widest and deepest stepping surface and lowest step-up height in the industry, ergonomic handrails to support multiple climbing positions and an all new drive train that delivers smooth, quiet performance.

StairMaster® OVERDRIVE

The new OverDrive Training Mode simulates carrying or pushing a load up stairs. Users choose either manual control or one of several pre-programmed interval workouts to create the toughest workout ever delivered on the cardio floor. The 10G handrails provide three hand positions for pushing, as well as farmer's carry handles.

FEATURES

OverDrive Training Mode simulates carrying or pushing a load up stairs for an all-new level of HIIT workout

Widest, deepest step in the industry and lowest step up height

Redesigned handrail system supports a variety of workout positions including push/carry in new OverDrive Training Mode and optimal entry/exit

Service panel removes with 4 fasteners, allows easy access to drive train and electronics

GymKit allows OpenHub LCD & new 15" consoles to connect directly with Apple Watch for real-time data sharing between the equipment and Watch.

OPENHUB™ FAMILY OF CARDIO CONSOLES

When we set out to design our new console, our philosophy was simple: provide a flexible platform that connects expert partners and provide solutions for every customer. OpenHub is a smart, affordable, configurable solution available on Star Trac® and StairMaster® cardio equipment packed with entertainment, fitness tracking, group display and asset management solutions. Whether you are looking for embedded TV, streaming video, 800/900mhz receivers or an add-on pvs, it's all possible. The best part is, you add (and pay for) only what you want, when you want. All OpenHub consoles can connect with leading technology and third party apps to deliver connectivity solutions for users to easily track, save and share their workout results. The future of club connectivity is here. The future is OpenHub.
